April 2020 Notary News

Six weeks ago, I did not imagine owning a 20L pail of hand sanitizer, the definition of Zoom was not in my personal dictionary, and the new office perfume now being bleach! Here we are having survived and thrived and continuing to offer social distancing friendly, heart-happy essential services. The pandemic has brought around many changes in the Notary world, including people having wills done over Skype or Zoom and we now offer drive-in services where you stay in your car and sign documents— sorry no cheeseburger and fries with that!

Below are updates on our community shredding event and a series of educational sessions being offered remotely.

Top Realtor Jane Johnston, Re/Max Camosun interviews Beverly about legal practices during COVID-19.

Random Act of Kindness

Thank you, Paul!

After dropping my poodle, Sumo at WES-TECH Irrigation, for his work day (dog needed to sleep in this morning) and then seeing a relatively short line up at Starbucks drive-thru on a whim I decided to get in line. As a result The Notary team are the beneficiaries of a Random Act Of Kindness. Paul in the big white 1 ton truck in front of me paid for our beverages. What a great start to the day!
